

**EDU15SPL Competition subwoofer**  
**Dual 0.7ohm 5000 watt RMS 10000 Watts Max**

**NO LIMITS - COMPETITION SPL**

The EDGE Unlimited range is designed as just that, no limits! The range is about maximum performance without compromise. The new Unlimited subwoofers have been packed with technology such as the unique heat raptor, carbon fibre dust-cap, ribbed surround and high quality USA built voice coil.

All of the tech is then strategically engineered to ensure the maximum performance possible by combining the correct motor and pole piece, well designed suspension and accurately produced wiring and voice coil

All this results in a subwoofer that produces exceptional results on all levels!

Model	EDU15SPL-E2
Cone	Non-pressed paper cone
Surround	High roll foam - ribbed
Dustcap	Carbon Fibre
Voice Coil Diameter	100mm
Voice Coil Winding	4-layer 65mm Flat Aluminium
Spider	4pcs black PC
Gasket	Rubber
Top Plate	25mm Black anodized
Terminal / Wire	10awg cable
Impedance	Dual 0.7Ω
RMS Power	5000 watts
Peak Power	10,000 watts
Magnet	280mm x 25mm 3pcs 612oz
Mounting Diameter	352mm
Mounting Depth	265mm
Recommended Enclosure Volume	4-5.5 cuft
Recommended Port Area (SPL)	15 sqin per cuft
Recommended Port Area (Music)	10 sqin per cuft
Recommended Amplifier	EDX5000.1FD-E9

**BEST SPL** - High power SPL derived subwoofer for competition winning performance along sound smooth musical playback.

**UNIQUE TECHNOLOGIES** - Innovative heat raptor technology for enhanced heat dissipation leading to louder, longer playtime.

**BEST SOUND** - The ribbed surround, non pressed paper cone and Carbon fibre dust-cap allows the EDU subwoofer to have lightweight soft parts for a smooth sound-wave transition for a warm rounded sound.

**HIGH POWER** - 5000 watts RMS of power from a high performance American made Voice coil which features a 65mm winding height and high temp black resin coating.

**RIBBED SURROUND**

Ribbed surround for greater control of high excursion and smoother bass reproduction.

**USA BUILT VOICE COIL**

High temperature Dual 0.7ohm USA built Voice coil. Perfect for SPL competitions and street bass applications.

**HEAT RAPTOR**

Aluminum heat sink and extraction pole for added heat dissipation from the USA built VC and the high power motor, this increased performance and lowers running temperature.

**TORSION BASKET**

Cast alloy basket which gives incredible tensile strength and excellent dampening properties for the best linear response from the subwoofer.

**DUAL VOICE COIL**

Dual 0.7Ω voice coil configuration for competition usage due to final loading resistance allowing full power draw from EDGE amplifiers

**HIGH POWER MOTOR**

Powerful ferrite magnet provides extreme motor force for high SPL applications.
